- Engaging in **personal development** and continuous learning
- Outdoor activities (including travelling)

I am a Data Analytics graduate who completed training with CAPACITI, and I am currently gaining real-world experience through an internship at Village Up and Good Work Foundation. I enjoy working with data to find useful patterns, create reports, and help teams make informed decisions.

- » I am confident in using tools like Power BI and Excel for data cleaning, analysis, and dashboards. I am proactive, focused, and always willing to learn new skills. I work well with others, communicate clearly, and manage my tasks responsibly. My goal is to grow in the data field and use data to support positive change in businesses and communities.
